- Easy to move with 360° rotation
- Four heavy-duty 3" casters
- Includes one locking caster for stability
- Maximum load of 265 lbs.
- Weight: 8 lbs.
- Height: 4.5"
- Size: 25" diameter

No. JDI-TT1-EX

The Tire Taxi can be used many different ways, including:

- Moving new tires from the storage area to the service bays
- Moving wheel and tire assemblies from the vehicle to the tire changer
- Stacking ties for display purposes
- Storing wheels during mechanical work to keep them out of the way

The Tire Taxi:

- Is designed for transporting car, light truck, and SUV tires and wheels
- Can transport five (5) tire and wheel assemblies or eight (8) tires
- Is a compact size and lightweight making it easy to handle and store when not in use.

Tire Taxi – EX

The Tire Taxi EX is an extended version of the original Tire Taxi. Designed to create a more ergonomic working height, the Tire Taxi EX has four legs that extend the overall height to 23".

- Helping to improve work posture
- Helping to avoid unnecessary lifting
- Minimize strain on knees, back and shoulders
- Maximum load – 265 lbs.

The safe, ergonomic and more efficient method for handling and transporting wheels and tires.

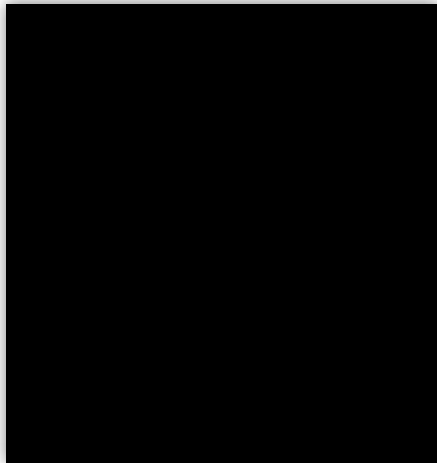

The Tire Taxi is specifically designed to make moving tires throughout the service bays simple, fast, and safe. With the Tire Taxi you can:

- Decrease Injuries
- Increase Technician Productivity
- Increase Shop Efficiency
- Increase Employee Satisfaction

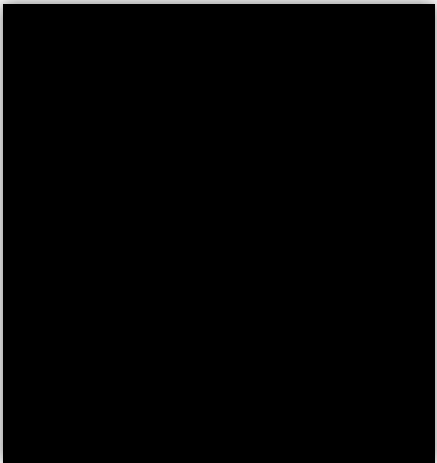

- Designed for transporting car, light truck and SUV tires and wheels
- Transport five (5) tire & wheels assemblies or eight (8) tires
- Built in locking caster
- Easy to move with 360° rotation
- Max load of 265 lbs.

The Tire Taxi will hold up to five tire and wheel assemblies or eight tires.

Four heavy-duty swivel casters allows the Tire Taxi to rotate 360 degrees making it easy to maneuver.

Tires and wheels can be transported from the car or from the storage room to the tire changer in one trip, increasing technician safety and productivity.
